

Farwell Independent School District Pest Management Policy for Staff & Teachers

This district prohibits the possession, storing or application of any kind of pesticide on school premises, or as part of any of the district's activities, by unauthorized personnel.

A pesticide is defined as a substance or mixture of substances intended for destroying, repelling or mitigating any pest. (This includes items like glue boards, fly traps and cans of household insecticides.) A pest is any living that exists where it is not wanted. [As defined by the School IPM Regulation]

If you would like a copy of the district's IPM policy statement, this can be found in the Superintendent's office or with the district's IPM coordinator, Tim Kasel.

Employees who violate this prohibition shall be subject to disciplinary sanctions.
